HIKING RECOMMENDATION

EUROPA RUNDWEG CIRCULAR TRAIL

Enjoy limitless far-reaching views on the Hoher Kasten thanks to an unrestricted 360-degree panorama.

The 259-metre-long summit Europa Rundweg Circular Trail, which was built in 2016, circles the entire summit with its striking profile and offers unique views of a total of six countries. The path is mostly barrier-free and therefore also accessible for families with prams and people with limited mobility. The round trip is shovelled daily; only after a heavy snowfall is it inaccessible or passable only to a limited extent. Benches, panorama boards and free telescopes with the names of the mountain summits and towns are available.

Tip: Provided that the weather is clear, you can enjoy a 360-degree view over six countries all whilst enjoying a rich breakfast buffet in the Revolving Restaurant Hoher Kasten.
